- HP restricts their warranty from some switches. NETGEAR lifetime warranty covers all ProSafe switches, firewalls and access points.
- 3Com restricts their limited lifetime warranty to select switches and limits it to five years after they discontinue a product. NETGEAR lifetime warranty remains in effect for as long as the original purchaser owns the product and covers all switches, as well as including access points and security products.
- Cisco restricts their limited lifetime warranty to five years after they discontinue a product and by excluding power supplies and fans. NETGEAR lifetime warranty remains in effect for as long as the original purchaser owns the product and covers internal power supplies and fans.
- D-link limits their limited lifetime warranty by excluding security and wireless products; excluding power supplies and fans; and then caps the coverage at either three years or five years after they discontinue a product. NETGEAR lifetime warranty remains in effect for as long as the original purchaser owns the product and covers switches, security, and business wireless products. Additionally, NETGEAR includes internal power supplies and fans.

*The Lifetime hardware warranty only covers hardware, fans, internal power supplies, and does not include external power supplies or software. Hardware modifications or customization void the warranty. The warranty is only valid for the original purchaser and cannot be transferred.
