

THE BIGGEST PLATFORM LEAP IN A DECADE

The new Intel® Xeon® processor scalable family accelerates performance agility, strengthens security, and improves efficiency.

Change is in the air: The Intel® Xeon® processor E5 and E7 families will merge into the first-ever Intel® Xeon® processor scalable family. With new platinum, gold, silver, and bronze levels, it will be easier for you to recommend the appropriate scalable, secure, agile, next-generation platform for customers' infrastructures.

NEW LEVELS

New platinum, gold, silver, and bronze levels simplify ordering

HUGE PERFORMANCE LEAPS

Integration updates include Intel® Advanced Vector Extension 512, 1/10GbE Intel® Ethernet high-speed networking and Intel® QuickAssist Technology

EASIER RECOMMENDATIONS

New levels make it easier for you to recommend the appropriate scalable, secure, agile, next-generation platform for customers' infrastructures

SECURITY WITHOUT COMPROMISE

Reduce performance overhead for trusted service delivery with exceptional encryption algorithms

DYNAMIC SERVICE DELIVERY

Performance leaps enable a fully virtualized data center that dynamically self-provisions resources based on workload

FLEXIBLE PORTFOLIO

Cater to a broad range of workloads, from high-performance computing to virtualized infrastructures and artificial intelligence

Take advantage of resources, training, and links to promotions at the Intel® Distributor Resource Center: [Intel Xeon processor scalable family web page >](#)

Get support, product info and more at the Intel® Technology Provider Portal for Platinum partners: [Intel Xeon processor scalable family web page >](#)

SCALABLE FAMILY
